

Put the power of the Medical Language Lab to work for you.

INSTRUCTOR GRADEBOOK

Assess your student's progress.

- Everything you need to know about how your students are performing is right at your fingertips in the "Gradebook."
- Automated grading and the "Gradebook" enable you to track your students' progress...as individuals and as a class.

The "Gradebook Details" screen lets you quickly see if the students in your class have completed their assignments, how much time they have spent working in the MLL, and their grades on their assignments.

Click on "View Details" to review a student's individual "Gradebook."

For each individual student, the "Class Level Details" screen shows you that student's grade for each lesson as well as the amount of time spent working on it.

Click again on "View Details" to assess their progress through each activity in a lesson.
