Contributors

Monique Mokha, PhD, ATC, LAT
Associate Professor
Division of Math, Science, and Technology
Farquhar College of Arts and Sciences
Nova Southeastern University
Fort Lauderdale-Davie, FL

Brady L. Tripp PhD, ATC
Clinical Associate Professor
Director of Graduate Athletic Training
Dept. Applied Physiology and Kinesiology
College of Health and Human Performance
University of Florida
Gainesville, FL
Reviewers

John W. Burns, MS, ATC, LAT  
Program Director, Athletic Training Education  
Kinesiology  
Washburn University  
Topeka, KS

Erin M. Jordan, MS, ATC  
Clinical Instructor  
Health and Kinesiology  
Georgia Southern University  
Statesboro, GA

Joanne Klossner, PhD, LAT, ATC  
Clinical Assistant Professor  
Kinesiology  
Indiana University  
Bloomington, IN

Heather Schuyler, MA, AT, MT, KTP  
Assistant Professor  
Athletic Training Education Program/ESPE  
Adrian College  
Adrian, MI

Bret A. Wood, MEd, LAT, ATC  
Lecturer, Clinical Coordinator  
Department of Kinesiology  
University of North Carolina at Charlotte  
Charlotte, NC

Clinical Examination of the Ankle and Leg  
246  
History  
246  
Functional Assessment  
246  
Inspection  
248  
Joint and Muscle Function Assessment  
255  
Joint Stability Tests  
260  
Neurological Assessment  
266  
Vascular Assessment  
266  
Region-Specific Pathologies and Selective Tissue Tests  
269  
Ankle Sprains  
269  
Ankle and Leg Fractures  
276  
Achilles Tendon Pathology  
280  
Peroneal Tendon Pathology  
286  
Medial Tibial Stress Syndrome  
288  
Stress Fractures  
288  
Compartment Syndromes  
290  
On-Field Examination of Leg and Ankle Injuries  
295  
Equipment Considerations  
295  
On-Field History  
295  
On-Field Inspection  
296  
On-Field Palpation  
296  
On-Field Range of Motion Tests  
296  
Initial Management of On-Field Injuries  
296  
Ankle Dislocations  
296  
Compartment Syndrome  
297  

Chapter 10  Knee Pathologies
Clinical Anatomy  
301  
Articulations and Ligamentous Support  
302  
The Menisci  
305  
Muscles Acting on the Knee  
307  
Neurological Anatomy  
311  
Vascular Anatomy  
311  
Clinical Examination of Knee Injuries  
311  
History  
311  
Past Medical History  
311  
History of the Present Condition  
311  
Functional Assessment  
314  
Inspection  
314  
Determination of Intracapsular versus Extracapsular Swelling  
320  
Joint and Muscle Function Assessment  
323  
Joint Stability Tests  
325  
Neurological Assessment  
329  
Vascular Testing  
329  
Region-Specific Pathologies and Selective Tissue Tests  
329  
Uniplanar Knee Sprains  
329  
Rotational Knee Instabilities  
341  
Meniscal Tears  
348  
Osteochondral Lesions  
357  
Iliotibial Band Friction Syndrome  
358  
Popliteus Tendinopathy  
361  
Knee Osteoarthritis  
366  
Tibiofemoral Joint Dislocations  
366  
On-Field Examination of Knee Injuries  
371  
Equipment Considerations  
371  
On-Field History  
372  
On-Field Inspection  
372  
On-Field Palpation  
372  
On-Field Range of Motion Tests  
372  
On-Field Ligamentous Tests  
372  
On-Field Management of Knee Injuries  
376  
Tibiofemoral Joint Dislocations  
376  
Collateral and Cruciate Ligament Sprains  
377  
Meniscal Tears  
377  

Chapter 11  Patellofemoral Pathologies
Clinical Anatomy  
381  
Articulations and Ligamentous Support  
381  
Muscular Anatomy and Related Soft Tissues  
383  
Bursae of the Extensor Mechanism  
384  
Clinical Examination of the Patellofemoral Joint  
384  
History  
386  
Functional Assessment  
387  
Inspection  
387  
Joint and Muscle Function Assessment  
395  
Joint Stability Tests  
395  
Neurological and Vascular Testing  
397  
Region-Specific Pathologies and Selective Tissue Tests  
397  
Patellofemoral Pain Syndrome  
399  
Patellofemoral Instability  
401  
Patellofemoral Tendinopathies  
404  
Traumatic Conditions  
411  
On-Field Evaluation of Patellofemoral Injuries  
414  
Equipment Considerations  
414  
On-Field History  
414  
On-Field Palpation  
416  
On-Field Functional Assessment  
416  
Initial Management of On-Field Injuries  
416  
Patellar Tendon Rupture and Patellar Fracture  
416
## Chapter 12 Pelvis and Thigh Pathologies

### Clinical Anatomy
- Articulations and Ligamentous Support
- Muscular Anatomy
- Bursae
- Neurological Anatomy
- Vascular Anatomy

### Clinical Examination of the Pelvis and Thigh
- History
- Functional Assessment
- Inspection
- Joint and Muscle Function Assessment
- Joint Stability Tests
- Neurological Testing

### Region-Specific Pathologies and Selective Tissue Tests
- Iliac Crest Contusion
- Muscle Tears
- Quadriceps Contusion
- Slipped Capital Femoral Epiphysis
- Legg-Calvé-Perthes Disease
- Femoral Stress Fractures

### Intra-Articular Pathology
- Femoral Acetabular Impingement
- Labral Tears
- Hip Osteoarthrits
- Hip Subluxation
- Athletic Pubalgia
- Osteitis Pubis
- Piriformis Syndrome
- Snapping Hip Syndrome (Coxa Saltans)
- Bursitis

### On-Field Evaluation of Pelvis and Thigh Injuries
- Initial Evaluation and Management of On-Field Injuries
- Hip Dislocation
- Femoral Fracture

## Chapter 13 Lumbosacral Pathologies

### Clinical Anatomy
- Bony Anatomy
- Intervertebral Discs
- Articulations, Ligamentous, and Fascial Anatomy
- Neurological Anatomy
- Muscular Anatomy

### Clinical Examination of the Lumbar Spine
- History
- Nonorganic Origin of Pain

### Region-Specific Pathologies and Selective Tissue Tests
- Spinal Stenosis
- Intervertebral Disc Lesions
- Segmental Instability
- Erector Spinae Muscle Tears
- Spondylolysis
- Sacroiliac Pathology

### On-Field Examination of Lumbar Spine Injuries
- On-Field History
- On-Field Inspection
- On-Field Neurological Tests
- On-Field Palpation

### On-Field Management of Lumbar Spine Injuries
- Lumbar Spine

## Chapter 14 Cervical and Thoracic Spine and Thorax Pathologies

### Clinical Anatomy
- Cervical Spine
- Thoracic Spine
- Intervertebral Discs
- Ligamentous Anatomy
- Thoracic Anatomy
- Thorax
- Muscular Anatomy

### Clinical Examination of the Cervical and Thoracic Spine and Thorax
- Cervical Radiculopathy
- Clinical Cervical Instability
- Facet Joint Dysfunction
- Brachial Plexus Pathology
- Thoracic Outlet Syndrome
- Thoracic Spine Pathologies
- Thorax Pathologies
- Splenic Injury
- Kidney Trauma
- Commotio Cordis
### On-Field Evaluation and Management of Cervical and Thoracic Spine and Thorax Injuries

- Brachial Plexus Injury
- Thoracic Spine
- Rib Fractures
- Pneumothorax and Hemothorax
- Respiratory Distress

### Upper Extremity Examination

**Chapter 15: Shoulder and Upper Arm Pathologies**

- Clinical Anatomy
  - Bony Anatomy
  - Joints of the Shoulder Complex
  - Muscles of the Shoulder Complex
  - Bursae of the Shoulder Complex
- Clinical Examination of Shoulder Injuries
  - History
  - Functional Assessment
  - Inspection
  - Joint and Muscle Function Assessment
  - Joint Stability Tests
  - Neurological Testing
  - Vascular Testing
- Region-Specific Pathologies and Selective Tissue Tests
  - Scapulothoracic Articulation Pathology
  - Sternoclavicular Joint Sprains
  - Acromioclavicular Joint Pathology
- Glenohumeral Instability
  - Anterior Instability
  - Nontraumatic Anterior Instability
  - Traumatic Anterior Instability
  - Posterior Instability
  - Acute Posterior Dislocation
  - Rotator Cuff Pathology
  - Biceps Tendon Pathology
  - Adhesive Capsulitis
- On-Field Examination of Shoulder Injuries
  - Equipment Considerations
  - On-Field History
  - On-Field Inspection
  - On-Field Palpation
  - On-Field Neurological Tests
- Initial Management of On-Field Shoulder Injuries
  - Scapular Fractures
  - Clavicular Injuries

**Chapter 16: Elbow and Forearm Pathologies**

- Clinical Anatomy
  - Articulations and Ligamentous Support
  - Muscular Anatomy
  - Nerves
  - Bursae
- Clinical Examination of the Elbow and Forearm
  - History
  - Functional Assessment
  - Inspection
  - Joint and Muscle Function Assessment
  - Active Range of Motion
  - Manual Muscle Testing
  - Passive Range of Motion
  - Joint Stability Tests
  - Neurological Testing
  - Vascular Testing
- Region-Specific Pathologies and Selective Tissue Tests
  - Elbow Dislocations
  - Fractures About the Elbow
  - Elbow Sprains
  - Ulnar Collateral Ligament
  - Radial Collateral Ligament
  - Osteochondritis Dissecans of the Capitulum
  - Epicondylalgia
  - Lateral Epicondylalgia
  - Medial Epicondylalgia
  - Distal Biceps Tendon Rupture
  - Nerve Pathology
  - Forearm Compartment Syndrome
- On-Field Examination of Elbow and Forearm Injuries
  - On-Field History
  - On-Field Inspection
  - On-Field Palpation
  - On-Field Joint and Muscle Function Tests
  - On-Field Neurological Tests
- Initial Management of Elbow and Forearm Injuries
  - Elbow Dislocations
  - Fractures About the Elbow

**Chapter 17: Wrist, Hand, and Finger Pathologies**

- Clinical Anatomy
  - Articulations and Ligamentous Support
  - Muscular Anatomy
  - Nerves
  - The Carpal Tunnel
